

Georgie Porgie Thaumatrope

Georgie Porgie's oily lie,
Sent our soldiers off to die,
Caskets rolling off the planes,
Georgie Porgie runs again.

How To:

- * Print on the heaviest paper available (regular paper will work but it won't spin as well)
- * Using scissors cut around the red line
Poke a hole for red circles (holes for the string)
- * Fold on the dotted line and glue on the back so the two sides stick together
- * Make two loops of string and tie on each side
- * Gently roll the string between thumb and forefinger to make Georgie spin around
